

m-Power Quick Facts

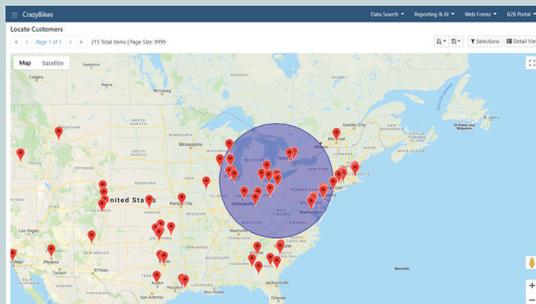

How does m-Power help you?

m-Power is the one platform you need for low-code development, BPA, and reporting over any database. m-Power reduces web application development time and costs, increases developer productivity, and lets anyone create web applications. While m-Power builds all types of applications, here are a few sample apps taken from the m-Power demo site, Crazybikes.com. View more demos at www.mrc-productivity.com/demos.html.
